Subject: Fill-A-Sleigh day

Gooday Council of Claresholm,

I am writing to request parking spot and sidewalk use on December 7th from 9am-6pm (this includes setting up in the morning). The Red Apple is hosting our annual Fill-A-Sleigh Day in support of our toy drive. The goal is to have free festive activities for the community to draw people in to donate. All donations from this event will stay in the community and help the Shop of Wonders provide presents to local families.

We would like to park a truck and trailer along the angle parking in front of the store. This will be decorated and be filled with the toy donations. This will also provide a buffer between pedestrians on the sidewalk and passing vehicles. On the west side of the building, we would like to set up a photo set to do photos with "Cowboy Santa". This set will include a fence separating the horse from the public for safety. I have volunteers lined up to poop scoop for the entire day. We would like Santa to ride from the AG grounds to the store to help advertise the event. Pooper scoopers would follow him on this route as well. I do not believe the street, or the side walks would need to be closed. We would place speakers on the sidewalks, but they would still be passable. In addition, we would place "Slow/ Caution Event Ahead" signs on all four streets leading to the intersection so motorists can change routes if they would like or take caution when passing the festivities. I anticipate lots of foot traffic in the area but would expect pedestrians to abide by the rules of the road. We hope to make this event a huge success to provide festivities to the community and generate support for a great cause.

Please let me know if you have any question or if I can provide further details. I am also open to adjusting any of these plans should the council not agree to them.

Please see my poorly drawn map attached.

I hope you guys have a wonderful day.

Kind Regards,

Katrina Kidd
Manager
