Subject: Fwd: Reporting Back: Shaping Energy Future Competitiveness in Southern Alberta

Abe

Workshop I attended in Pincher Creek, supported by Ab. Southwest. Abe could you view report and give me your thoughts about putting in on the agenda for information.

Thank you
Brad

Subject: Reporting Back: Shaping Energy Future Competitiveness in Southern Alberta

Good morning everyone,

Thank you for taking part in the Energy Futures Lab's Roadshow: **Shaping Energy Future Competitiveness in Southern Alberta**. Our team is grateful to have been welcomed so warmly into the community to help facilitate this deeply important work.

We are pleased to present you with the Summary Report compiled by our team. The report brings together learnings from the work and offers suggestions for next steps. **Feel free to share it with others** and use it as a tool to build momentum and partnerships.

Our main recommendation is: **Don't wait to get started**. Even though it's winter break, even though you're busy with work or vacations. The best chance to realize your vision starts with action. The report also contains recommendations on keeping up the momentum..

As Art Bonertz reminded us: ***"If it's meant to be, it's up to me!"***

We encourage you to begin with you, as an individual - **don't wait for a leader to emerge**. Start where you feel most passionate and pull in people who share your passion.

The next steps are now firmly in the hands of those who read this report. Whether you are a rancher, a retiree, a councillor or business owner - you are the ones you've been waiting for.

Although this will be the last formal correspondence from the EFL Team for this Roadshow, we would love to stay in touch and get updates from time to time on how things are progressing. We track the impact of these efforts by staying

connected so **please share your 'wins' with us** however big or small they may be.

We're always excited to hear from members of our community - which you're now part of! Please feel free to reach out at any time. You'll find our team contacts below.

With gratitude on behalf of the Pincher Creek & Area Energy Futures Roadshow Team,

Matt, Karen, Signe, and Keren
