Subject: City Council Letter

Dear Claresholm,

I hope this email finds you well.

My name is Jasleen Mann, and I'm a student in grade 10 at Tamanawis Secondary School in Surrey, B.C. I am writing this letter regarding the law in Alberta that allows 14 year olds to begin to learn how to drive. I understand that it is not your job to enact these laws, but I wanted to ask for your thoughts and opinions about having young drivers in your city.

Some people think that having young drivers is a good thing, since they would be able to have a sense of independence, teens could support their families with errands as well as fostering responsibility. Some concerns may be about about immaturity, more distracted learners, and peer influence pressuring kids who want to be cool leading to risky behavior on the road.

I hope to hear back from you about your thoughts and opinions on 14 & 15 year old drivers, if you think it is good idea or not and some of the reasons behind them.

Thank you for your time.

Sincerely,

Jasleen Mann

Tamanawis Secondary
