

INFORMATION BRIEF

Meeting: April 14, 2025

Spring Clean-up

DESCRIPTION:

As discussed at the March 24th regular council meeting, administration is looking for an alternative option for spring cleanup. Council asked for more information to be presented prior to approving the updated program.

DISCUSSION:

At the April 3rd Audit and Finance committee meeting council approved the updated 2025 Spring Cleanup program. Under the new program, 25 yrd roll off bins will be available for the public to use at the Town Yard. One bin will be left outside of the fenced compound, one bin will remain inside. When the bins are filled, a new bin will be dropped off and the full bin will be removed.

This program will run from May 5-15th. The public will have access to the bin in the Town Yard from 7am to 4pm every day except Sunday May 11th. The 4H club is holding an e-waste and tire roundup at the Town yard on May 10th. Any of those products collected before the 10th will be separated and held until the roundup.

The public will be asked to separate metals and e-waste, and furniture and mattresses will not be permitted to be dropped off.
