**FORTY YEARS.  
ONE MISSION.**

**CELEBRATING PARTNERSHIPS**

# Critical care, anywhere. Since 1985.

It all began when a pregnant woman from a rural community died from blood loss, leaving a father alone with their newborn. For STARS' founders, her death was one too many. Something had to be done.

As we've grown and evolved, STARS has never wavered from our mission. Fundamentally we believe that where you live – or work, play and travel – shouldn't impact your chance of survival.

**Dr. Greg Powell, OC, AOE, MD, FRCPC**  
STARS FOUNDER

A portrait of Dr. John Froh, President and CEO, standing in a hospital setting. He is wearing a dark blue suit, a light blue shirt, and a patterned tie. The background is a blurred red and white striped pattern, likely from a hospital gown or curtain.

STARS INNOVATIONS

## STARS H145 technology and upgrade benefits

---

With the completion of our fleet renewal initiative, STARS now operates ten Airbus H145 Helicopters. These aircraft continue to let us be there for the next patient that needs us.

In addition, automation upgrades and innovations, including the conversion from four to five rotor blades, allow STARS to operate more efficiently and safely than we ever have before.
