December 9, 2025

Dear Mayor Schlossberger and Council,

Thank you for your generous donation to the Oldman Watershed Council. Your support is deeply valued and appreciated as we work to improve the health and resilience of the watershed.

For over 20 years, OWC has served as a collaborative forum where diverse voices and interests come together to address the critical need for watershed stewardship. It's contributions like yours that make this important work possible.

Your donation helps us implement a range of strategies, from building watershed awareness through education and outreach, to leading and supporting restoration projects, and monitoring and reporting on watershed health across the region.

OWC is recognized as a trusted source of accurate, science-based information and as a team that builds strong partnerships while getting meaningful work done.

Thank you once again for your support.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Shannon Frank', is written over a light blue horizontal line.

Shannon Frank, Executive Director
