I like Endpoint's proposal. Us and Cardston County are on board. Everyone else is waffling.</p> <p>Feb. 4 Alberta Southwest meeting. Very well attended. Good conversation about waste to energy. Sean Miles (director of Investment) for Alberta Southwest gave a great report on how to create excitement and investment in our regional airports. Claresholm, Fort Macleod, Cardston County and Pincher Creek have airports. Looking to entice investment in these airports. Especially with the federal government. Talked about Medical Tourism. Using surgery beds in Pincher Creek to entice Americans up to get surgeries here. Our procedures are so much cheaper up here compared to theirs, plus the difference in the dollar makes even more attractive. Pincher Creek has 2 unused surgical rooms.</p>
