Message: Good Afternoon, Mayor Schlossberger,

The Alberta Community Crime Prevention Association (ACCPA) invites you to our 2026 Conference in Calgary. ACCPA educates our members, agencies, and the public on topics related to Community Safety and Wellbeing, and attendees at our conferences consistently report they are very satisfied with the conference topics and subject content. Last year, 250 delegates from municipalities, the Government of Alberta, police agencies, for-profits, and non-profits from across the province attended our conference in Edmonton, which provided delegates with information on current crime trends and how to prevent crimes in their communities.

Our 2026 conference theme is United for Change: Strengthening Partnerships for Long-Term Community Safety and will be held at the Westin Calgary Airport Hotel. This event offers an outstanding opportunity for you to learn about Restorative Justice, Human Trafficking, Gender-Based Violence, and Gang Exit Strategies to help prevent crime in your community.

Many municipal leaders from across Alberta attend our conference each year. We invite you and your council members to attend and look forward to seeing you at our 2026 Conference! Please visit our conference web page for further information about registering. Feel free to pass this information along to your networks and anyone else you feel would benefit from attending our Conference.
