**Subject:** Re: Traffic lights at 520 and highway 2

Dear Councillors,

With the McDonald's now being open, I believe it's appropriate to start a conversation about the intersection of highway 520 and highway 2. It's an already dangerous intersection and with the McDonald's now being located there, it will only get worse. I believe that intersection could have used traffic lights for a long while, and now I'm pursuing it. I have initiated talks with our MLA Chelsea Petrovic and the transportation minister Devan Dreeshan. At this point I just need the town councils backing. Sent from my iPhone

Hi Kelly,

Thanks for your email.

If you would like Town Council to be involved, please write a letter or email directed to Council and let them know what you are pursuing and what you would like Council to do.

I can confirm that the Town has asked for a traffic light in that location before and has been denied by Alberta Transportation, however that may change going forward with McDonald's being at that intersection.

Thanks

Good day.

I have been trying to be a voice for the installations of traffic lights, especially in light of the new McDonalds location. Although I understand this is a provincial issue, this is the response that I have gotten. I'm hoping and wishing for the town to advocate with me.
